

Wrongful Death/Catastrophic Personal Injury Defense

Unyielding Advocacy in the Face of Tragedy: Your Stronghold for Wrongful Death and Catastrophic Injury Defense.

Fender benders, slip and fall accidents or other cases where the exposure is not extreme – that's not what we do. Our clients in jurisdictions around the country hire our team when they are faced with potentially crushing liability in trucking cases, roadway design and maintenance, police shooting, large scale flooding and similar cases. We have devised a strategy for working up these cases with sophisticated, pinpoint discovery techniques and thorough case preparation. This allows us to win or dramatically limit the plaintiff's case before trial and we often are able to exclude plaintiff's expert witnesses so they never see the courtroom. If the case goes to trial, we have a team of highly experience lawyers who have successfully tried these cases to juries. Plaintiffs in large exposure cases regularly go to top, well known plaintiff's attorneys; you need to counter the threat the case and these lawyers pose with the top litigation and trial lawyers available.
