PATRICK J. BLACK

Patrick Black is a member of our natural resources, energy and environmental law group, where he focuses primarily on energy and water regulatory matters. Patrick works with the firm's large commercial developers, industrial clients and data centers to secure power service from the local electric utility providers. This includes helping to negotiate line extension, power supply and ancillary agreements pursuant to applicable tariffs, local and state laws.

Patrick also represents large industrial customers, renewable energy developers and water and wastewater utilities in matters before the Arizona Corporation Commission. He works with commercial and residential developers in securing utility services for end-use customers, including the integration of energy efficiency, clean tech and emerging technology programs to help combat climate change. Patrick represents clients before the Arizona Power Plant and Line Siting Committee in the siting of generation and transmission projects throughout the state.

Patrick is currently focused on matters involving the development of wholesale power markets in Arizona, as well as consolidation efforts in the water and wastewater industries to achieve a higher level of quality service for customers in more rural areas of the state.
