LAUREN J. CASTER

Larry practices in the areas of water and environmental law as it relates to the exercise of water rights. He represents clients in both the [Gila River Adjudication](#) and the [Little Colorado River Adjudication](#) pending in the state courts. He also represents water users in the Upper Gila River Valley in federal court litigation, and water users in the Agua Fria River Basin in state court.

Larry is a former Chair of the American Bar Association's Section of Environment, Energy, and Resources, and held numerous other leadership positions in that Section as well.

REPRESENTATIVE CASES

Representing a client in litigation over the water right claims of the Hopi Tribe, Superior Court of Arizona, Apache County. The Special Master's report is awaiting review by the Superior Court.

Representing clients in litigation over the water right claims of the Navajo Nation in federal and state courts.

Represented client in arguing successfully that a federal consent decree, entered by the United States on behalf of the San Carlos Apache Tribe, precluded additional water right claims by or for that Tribe to the mainstem of the Gila River. *In re General Adjudication of All Rights to Use Water in Gila River Sys. & Source*, 127 P.3d 882 (Ariz.), *reconsideration denied*, 134 P.3d 375 (Ariz. 2006), *cert. denied*, 549 U.S. 1156 (2007).

Represented clients opposing a claim by the Arizona State Land Department in both the Gila River and Little Colorado River Adjudications to a federal reserved water right for millions of acres of state trust lands. The Arizona Supreme Court held that no such reserved right exists. *In re General Adjudication of All Rights to Use Water in Gila River Sys. & Source*, 289 P.3d 936 (Ariz. 2012).

Advised clients in disputes over the Missouri River and the Apalachicola-Chattahoochee-Flint River System.

Represented the Town of Payson, Arizona, in negotiating an historic agreement with the Salt River Valley Water Users' Association and the Salt River Project Agricultural Improvement and Power District. Under the agreement, which was approved by the parties in 2008, the Town acquired the right to an average of 3,000 acre feet per year of water from C.C. Cragin Reservoir. That quantity of water, combined with groundwater pumping the agreement allows the Town to conduct and the Town's effective water conservation program, should provide a supply sufficient to meet the Town's demand at anticipated build-out. The contract is the result of more than a decade of effort by the Town staff and Larry to obtain access to water from this reservoir.

Advises clients on water resource planning, and the interplay between utilization of water resources and the impact of various environmental laws.
