ERIC N. GEE

Eric Gee is an associate in our Fresno office practicing in the Healthcare and Business & Finance groups. Before joining Fennemore, Eric worked in-house with a large academic health system, and he now provides outside general counsel services to a number of the firm's healthcare clients. His practice focuses on healthcare providers, including physicians, dentists, medical groups and hospitals. He assists clients with a wide range of corporate and transactional matters while guiding them through the complex regulatory framework that governs healthcare delivery.

As a Pharmaceutical Chemistry major in college, Eric has always been interested in the healthcare industry, and his analytical abilities combined with his love for solving complex problems led him to law school. As an attorney, Eric receives great satisfaction in thinking creatively to address problems for his clients – and that every day brings something new and different in the legal profession.

Away from work, you'll often find Eric backpacking in the many national parks and forests of The Sierra. He also loves to golf and is an avid runner. On the weekends, you'll also find Eric exploring the many farmers markets around Fresno, or grabbing tacos from one of the area's excellent food trucks.
